

These questions are organized roughly in order of increasing seniority – so, questions affecting first-years first, then sophomores, then juniors, then seniors.

!

All math majors must take the five “foundation” courses: MATH 101, MATH 102, MATH 103, MATH 104, and MATH 105. The order of the last three doesn't matter too much if scheduling them helps you out, and you can take more than one of them at once. **You should aim to finish all five foundations, as early as possible, by the end of your second year.**

" # \$ %# & ' ' !

In short, yes. We are very excited by the new 4-year-based MATH 101, and several of our math

" # -+ . /& + ' + 0

Unless you are an / ! 1. < - . double major, these aren't for you.

Unfortunately, several of our "specializations" are really just streamlined plans for students
