

Education and Human Development continues to be a top priority for the SMU's Simmons School of Education. Under the leadership of President J. Kim Johnson, the school has achieved significant milestones in the past year, including the launch of the new Center for the Study of the Future of Work, the expansion of the school's international partnerships, and the successful completion of the school's accreditation process. The school's commitment to excellence in education and research is reflected in its numerous awards and accolades, including the 2023 National Association of Schools of Education (NASPE) award for Best Practice in Education. The school's focus on innovation and leadership is also evident in its recent launch of the Center for the Study of the Future of Work, which will explore the impact of emerging technologies on the workforce and the role of education in preparing students for the future. The school's dedication to social justice and community engagement is also a key part of its mission, as evidenced by its recent launch of the Center for the Study of Social Justice and Equity. The school's commitment to excellence and innovation is also reflected in its recent launch of the Center for the Study of the Future of Work, which will explore the impact of emerging technologies on the workforce and the role of education in preparing students for the future.
